SUMMARY

I'm a MERN stack developer with a strong focus on creating intuitive user interfaces along with robust and efficient backed-end systems. Proficient in both front-end and back-end technologies, I have a strong command on HTML, CSS, JavaScript, and frameworks like React.js, as well as server-side technologies Node.js and Express

SKILLS

- **FRONT- END:** HTML | CSS | Javascript | Bootstrap | Tailwind CSS | React JS
- **BACK- END:** Node JS | Express JS
- **DATABASES:** Mongo DB | MY SQL
- **LANGAUGES:** C++ | C# | OOP | Python (Basic)
- **OTHER:** Git & GitHub | FIGMA | PSD

EXPERIENCE

Front-End Developer | ICONICTHINK Feb 2024 - Apr 2024

- I had completed my 2-month web development internship at iconicthink!
- **Achievements:** During this journey, I had the gained the basics to advance understanding of HTML, CSS, JavaScript, and React JS
Improved problem-solving skills through collaborative projects and mentorship from experienced developers.

Freelance Web Developer | FIVERR | UPWORK Oct 2023- Present

- **Completed Projects:** Figma to HTML/CSS and React JS conversions, landing pages, bug fixes, and website maintenance.
- **Technologies Used:** HTML5, CSS3, React JS, Tailwind CSS, Bootstrap, Node JS
- **Tools:** Figma, Git/GitHub, Google Maps API, MongoDB
- **Achievements:** Successfully delivered 25+ projects, maintaining a 4.9/5 rating.
